LEADERSHIP

“If you have an opportunity to do good, you are obligated to do so.”

THE DRUM MAJOR AWARD

Received **the Drum Major Award**, for my exceptional service to the community through volunteering, mentorship, and fundraising.

HE SAID THAT!

"I have witnessed his work ethic and can admit that over my professional career I have seen very few students that match his **drive, desire, and professionalism.**

He will volunteer, he will lead organizations, but most of all, he will do all this with pride and appreciation because he understands the importance of education and making those around you better."

-EARL ALEXANDER

College of the Mainland Recruiter/Advisor

COLLEGE OF THE MAINLAND
ROTARACT CLUB

Won **Club of the Year** in our first year running!

Over the course of my first year as President and Founder, I was able to lead:

- **$10,000+ raised**
- **150+ hours volunteered**
- **53 members joined**
- **11 service projects**

WHAT PEOPLE SAY ABOUT ME

“

*He is a true **servant leader** and is transparent and authentic in sharing his personal experience to relate to our teens. Coming from a similar background of most of our students, Mario has been able to share his experience as an academic, business owner, community activist, and campus leader. He is **patient and humble**, maintaining his composure in difficult situations. Mario being close in age to our demographic at times presents a challenge for our newcomers until he addresses any of their misbehavior with maturity, professionalism, and even gentle humor. **Mario’s greatest gifts are his high emotional intelligence, empathy, and discernment**. Mario maintains a boundary between being liked and being respected, mostly he is both. However, in situations where the integrity and values of our program may be disregarded by our participants, **Mario always chooses to do the right thing** over doing what may be the most popular thing, steering our students back on track.*

*Within the team, Mario has been a **standard of excellence** for what TRIO represents. We have been able to trust Mario to chaperone and supervise over 30 high schoolers multiple times. Mario is always keen and insightful about what goes on around him, making sure that events run on time and with no issues. He is **always willing to take the extra step** from doing what's required to doing what the team needs. Even though his job requirements only specify him to tutor/mentor our students, he has taken up office responsibilities that he sees could be improved. Some examples of this are when he created high quality flyers and brochures for recruitment and promotion purposes and when he developed an easy to access student database in excel to improve our student data metrics.*

*Mario is also a **voracious reader** of non-fiction and self-improvement literature. **He serves as a wealth of knowledge** in many useful life-skills areas from earning scholarships to managing personal finances, that when coming from him our students listen to and consider, often following through with his suggestions and reporting their success. For example, he read and researched a popular scholarship book, and applied the skills learned in the book to earn over $15,000 in scholarships. He then shared the book with students and staff. We were able to get the author to present to our students virtually and Mario introduced and facilitated the author’s presentation.*

I absolutely recommend Mario as a team member and student.
He will deliver and exceed your expectations.

”

-Lena Jones
Prev. TRIO UB Academic Advisor @ College of the Mainland

As a member of the Ion Student Ambassadors marketing & communications team, ***he has consistently taken initiative, managing projects, guiding his peers, and ensuring that everyone on the team thrives****. Whether it's brainstorming social media content, coordinating campaigns, or capturing stunning photography and videos that showcase the impact of our programs,* ***Mario brings both creativity and strategy*** *to the table. What sets him apart is his ability to* ***lead with humility****; he shares his knowledge freely, making sure his peers feel empowered to grow and contribute at their highest level.*

There have been countless times when I've put out a call for help, and ***Mario is always the first to volunteer****, even if it means stepping outside of his comfort zone. He has an innate ability to* ***problem-solve on the fly and a work ethic that is unmatched****. His impact has been so significant that the Ion is actively considering him for a part-time internship, a testament to the value he brings to our team.*

Mario's resilience and drive extend far beyond his role at the Ion. ***He actively seeks out challenges as opportunities for growth****. He's not afraid to take on projects he's never done before, learning as he goes and excelling in the process. His ability to adapt and push forward speaks volumes about his character. He completes tasks, masters them, and then turns around to help others do the same. His* ***commitment to excellence*** *in his professional development is evident in everything he does.*

One particular moment that stands out is when Mario took charge of a social media campaign, "Meet the Ion Student Ambassadors," with a goal of introducing the cohort to our broader audience. ***From concept to execution****, he led the effort, creating high-performing content that not only met but exceeded expectations. He balanced creativity with strategic messaging, ensuring that the visuals and copy aligned perfectly with our brand standards, all without needing direction.*

Mario is a hard worker, a dedicated leader, and someone who will undoubtedly continue to make an impact wherever he goes*.*

His ability to motivate others, take initiative, and approach every challenge with a positive attitude makes him an exceptional candidate for any opportunity that comes his way. It's been a privilege to work alongside him, and I have no doubt that he will continue to excel.
